# DOD HMIRS

---

- HMIRS is a database containing MSDS and related information on Hazardous Materials (HAZMAT) used or procured for use by DoD
- HMIRS is managed by the Defense Logistics Agency (DLA)
- The HMIRS Program Manager is Ms. Kay Eggers at the Defense Logistics Information Service (DLIS)
- The HMIRS Functional Manager is Mr. Linwood Gilman at the Defense Supply Center Richmond (DSCR)

# **Hazardous Material Information Resource System (HMIRS)**

---

## **Purpose of HMIRS**

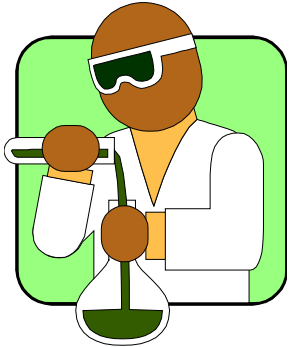

- Computerized MSDS System
- Technical Focal Point Review
- OSHA Hazard Communication Standard
- Comply With Other Reporting Requirements

## **Material Safety Data Sheet**

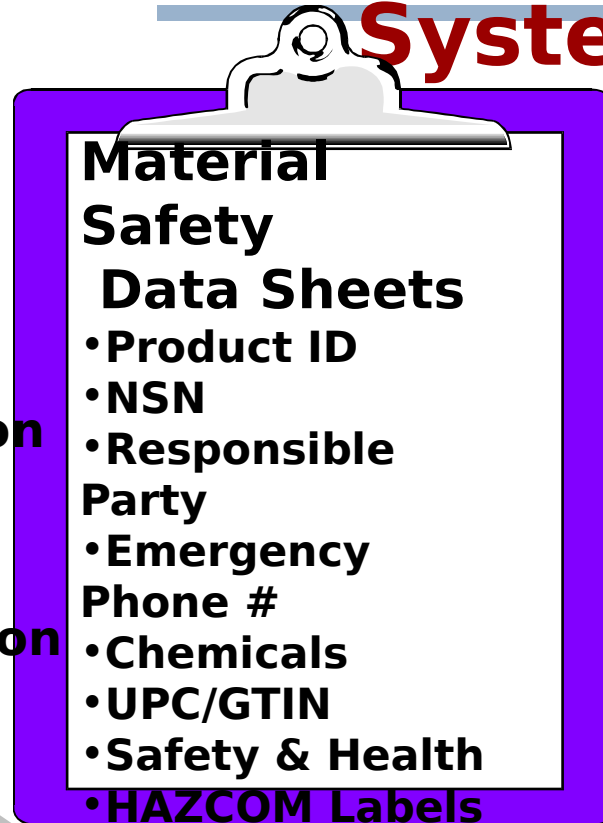

- General Information
- Ingredients
- Physical & Chemical Properties
- Fire & Explosion Hazard Data
- Reactivity
- Health Hazard Data
- Precautions - Safe Handling & Use
- Control Measures

## **Types of Materials**

- Flammable - Jet Fuel
- Toxic - Sodium Cyanide
- Corrosive - Battery Acid
- Irritating - Sodium Hypochlorite
- Radioactive - Electron Tube (Thorium)
- Explosive - Pyrotechnic Devices
- Oxidizer - Ammonium Nitrate
- Compressed Gases - Nitrogen

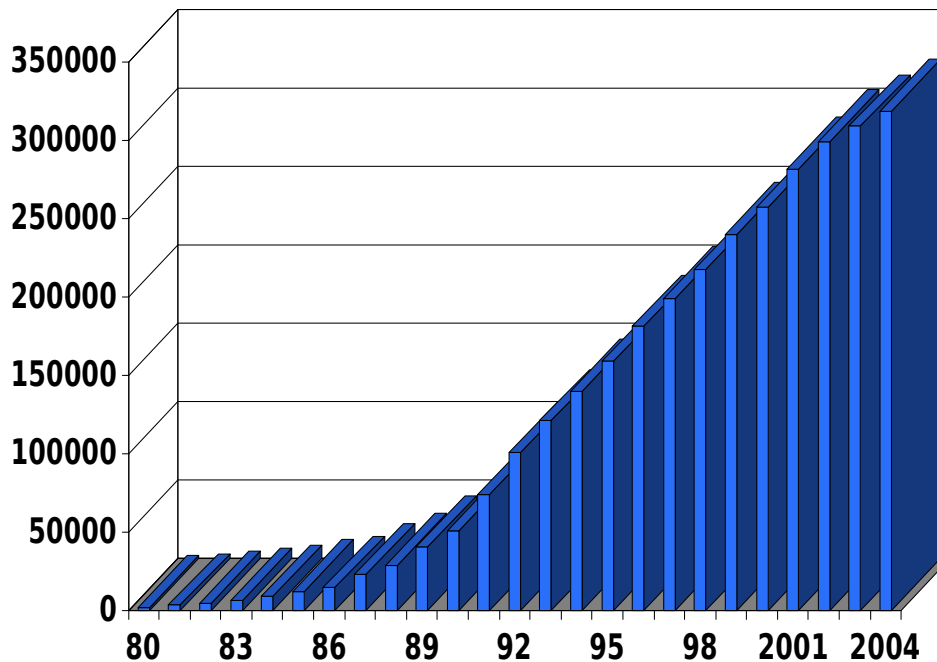

## **Data In System**

- Material Safety Data Sheets
- Hazard Characteristic Code (For Storage)
- Transportation Data
- Disposal Data
- Label Data
- Environmental Data

# HMIRS

## HMIRS Records

## Statistics

- 315,000 Records
- 10,000 Records Added Each Year
- Each Service/Agency has Their Own Focal Point

# Interface Systems

---

- Implemented
  - HSMS
  - FLIS
  - ERLS
  - RHICS
  - LMP
- Can be implemented upon MOA/testing completion

#### Information for Use of This Web Site

The HMIRS system will be upgrading to Netscape 6.2 in early 2003 - Netscape users be sure to upgrade soon. It currently works with Netscape 4.76 and will continue to work with Microsoft Internet Explorer 5.01. The system requires screen pixels set at 800x600 or better. A setting of 1024x768 is the ultimate efficiency for viewing. To change the pixels, begin at the Start Menu and select, in this order, SETTINGS, CONTROL PANEL, DISPLAY ICON, SETTINGS, then set pixels to 800x600 (1024x768 preferably), click on APPLY, then click on OK. The message "DO YOU WANT TO RESTART YOUR COMPUTER NOW?" will appear. Select YES. If these do not work for you, please contact your local PC Facilitator for assistance. If you are still having difficulty changing the pixels, please call us at the DLIS Customer Service Office for assistance.

## HMIRS

Hazardous Materials  
Information Resource System

The Hazardous Materials Information Resource System (HMIRS) is a Department of Defense (DoD) automated system developed and maintained by the Defense Logistics Agency. HMIRS is the central repository for Material Safety Data Sheets (MSDS) for the United States Government military services and civil agencies. It also contains value-added information input by the service/agency focal points. This value-added data includes HAZCOM warning labels and transportation information. HMIRS provides this data for hazardous materials purchased by the Federal Government through the Department of Defense (DoD) and civil agencies. The system assists Federal Government personnel who handle, store, transport, use, or dispose of hazardous materials.

Defense Logistics Information Service (DLIS) is the HMIRS Program Manager and acts as the focal point for Help Desk support. The DLIS Customer Service Office number is DSN 932-4725 or commercial 1-888-352-9333. The Fax number is DSN 932-5305 or commercial (269) 961-5303. Defense Supply Center Richmond (DSCR) is the Functional Manager and provides Hazardous Information Help Desk support. The DSCR Help Desk number is (804) 279-5734 or DSN 695-5734. The Fax number is DSN 695-4149 or commercial (804) 279-4149.
